

GIRLS ARE ROASTED
BEHIND IRON BARSFEARFUL HOLOCAUST AT MON-
TREAL, QUEBEC.

**Imprisoned Behind the Closed Windows
of McDonald's Tobacco Factory—
List of the Dead and Injured—The
Crowd in the Street Horror Stricken
—Forest Fires in Wisconsin**

Montreal, Que., April 26.—A score or more women and girl employees were killed or fatally hurt and \$750,000 in property was lost in a fire in W. C. McDonald's tobacco factory at the eastern part of the city early last evening. The known dead:

THIBEAUDAU, BLANCHE.
THIBEAUDAU, VICTORINE.
The fatally injured:
BARAD, LIONEL.
BLONDIN, NAPOLEON.
BEAUCHAMP, ROSANNA.
CHARPOT, J.
CONCASE, MAXIME.
FLYNN, MARY.
FOSTER, IDA.
FORTIN, IDA.
GAGNON, MARIE; back broken.
GAGNON, JOSEPH.
GAGNON, ADELE.
ROSELLE, L.
SARAPHIN, SARAH.
SINNETTE, H.
SORBINE, AMELIA.
The injured:
Borel, Max, fireman; terribly burned.
Crown, Patrick, fireman; both legs broken.
Five Others, names not known.

There were 900 employees in the building, which had no fire escapes and only two staircases in the interior. All the windows were barred with heavy iron lattice work, a precaution taken to keep employees from throwing tobacco to their friends. Frantic with fear, the women, of whom there were fully 500 penned up on the top stairs, screamed for help, half choked by the greasy black smoke. The dense crowd prayed and shouted as it swayed to and fro in its excitement and horror, the firemen roared, and relatives and friends of the work people made piteous appeals to save their loved ones. Some of the girls managed to tear one of the iron lattices from a window. Then the real tragedy of the night began. Blanche Thibeaudeau, aged 18, crazed with fear, jumped first and was battered into a shapeless mass.

A cry of horror went up, but it was only a beginning. Before tender hands could lift the remains into an ambulance others had attempted the terrible leap, following the first like frightened sheep. Out they came, one after another, till twenty inanimate bodies littered the sidewalk and were carried away to the various hospitals among the lamentations of the crowd.

Three priests, their soutanes trailing in the mud, were kneeling on the ground praying for the souls of the unfortunates. Ambulances could not attend to them all and cabs were pressed into service.

Alphonse Thibeaudeau, a sister of the girl who jumped first, broke her back and died. Of the others who jumped from the fourth story Amelia Sorbine, Ida Fortin, Rosanna Beauchamp, and about ten others, the doctors say, are fatally injured. A score of others who jumped from the lower windows or were pushed down the stairways were badly injured. In all about thirty-five girls, all French Canadians, were hurt and killed.

Three firemen were on the roof and could not get down. For fully twenty minutes their lives were in jeopardy. Their sufficient length of ladders were secured to bring them down. They were terribly burned. In the meantime the firemen had managed to break some more lattices and were carrying crying women in long processions down the ladders. Another fireman was still on the roof and the scene with the flames around him, his hands raised in prayer, reminded one of the terrible disaster at the World's Fair. Finally he was also taken down, but he was terribly burned. His name was Max Borel.

Another fireman, Pat Crown, fell from a ladder and had both legs broken. Two others also lost their footing and fell, breaking several ribs. The work of rescue took almost an hour and several of the men and women, if not burned, were suffocated by the smoke.

At a late hour it is said at least six girls are missing and there is little doubt their charred and crushed bodies are in the ruins. The hospitals and morgue are overrun with people looking for missing relatives and the surgeons are doing their work to the accompaniment of the prayers of the priests.

W. C. McDonald, who is well known as the Canadian tobacco king, is several times a millionaire and has donated two magnificent buildings to the McGill university. Two years ago he determined that his factory, which is an immense four-story block, could not burn and he dropped all insurance. There are rumors of his arrest for violating the building ordinances in not having proper exits and escapes, and it is more than likely several building inspectors will be discharged.

IN NO IMMEDIATE DANGER.

**Early Reports of Fires Near Phillips and
Prentice Exaggerated.**

Chippewa Falls, Wis., April 26.—Word was received here yesterday that forest fires are again raging in the vicinity of Phillips and Prentice, and it now looks as if that devastated region will suffer a second catastrophe. The woods near Prentice are ablaze, and the home-steaders and farmers are rushing into the city for safety. There were several farm houses burned out yesterday, and there seems to be no probability that the fires will abate. The weather is hot, and woods and trees are as dry as tinder, making them fit subjects for the fire to prey upon. Unless rain comes the fire will certainly create wide desolation. The nearest approach the fire has made is a quarter of a mile distant, and it is burning slowly toward the city. If a wind springs up the flames may be carried into the town.

PHILLIPS, WIS., April 25.—The report

sent from here yesterday that the city was burning or in imminent danger is untrue. There is no apparent danger.

Damage Done Near Cumberland.

Cumberland, Wis., April 26.—It is impossible to estimate the damage done by the forest fires in this city. At Perley, Andrew & Perley Lumber company's boarding-house, blacksmith shop and two barns were burned; also three other dwellings and two barns. Some lumber belonging to J. Nathan and several hundred cords of wood were also burned. The fire has now reached the standing pine belonging to Hearsay & Bean, northwest of here, where the greatest damage is done. Several crews of men are fighting the fire. A considerable quantity of cord wood is on fire, but no further damage is anticipated, except to standing timber.

NORTH DAKOTA TOWN BURNED.

**Minnewaukan Suffers the Loss of the
Greater Part of Its Buildings.**

St. Paul, Minn., April 26.—Fire yesterday destroyed the greater portion of Minnewaukan, N. D., in the northern part of the state near the Manitoba border. Only two business houses are left. The Northern Pacific depot was one of the buildings burned. The aggregate loss is \$40,000, with \$15,200 insurance.

Cleveland, Ohio, April 26.—Three million feet of pine lumber in the yard of F. B. Newton & Co. was destroyed by fire yesterday. Loss, \$40,000; insurance, \$10,000.

Charlotte, N. C., April 26.—The wholesale department of Brown, Weddington & Co. burned yesterday. Eight stores were also burned. The loss is not less than \$125,000, partly covered by insurance.

Lafayette, Ind., April 26.—Fire last

night burned the plant of the Columbia Paper company of this city. Loss, \$50,000.

Forest Fires in New Jersey.

Lakewood, N. J., April 26.—The forest fire which originated from the burning of tallow in a hotel in the cedars a mile from this place continues to burn fiercely. It is estimated \$75,000 worth of property has already been destroyed. 2,000 acres having been burned over. The residents of the surrounding neighborhood have been fighting the flames since yesterday. The wind shifting, it is now hoped to save much valuable property.

Vineland, N. J., April 26.—The forest fires which have been burning some distance from this place for the last three days are getting dangerously close to Vineland. The heat of the flames can be plainly felt here.

Lumber Companies Are Anxious.

Marinette, Wis., April 26.—Reports have been received here that forest fires are raging in the woods between Amburg and Iron Mountain on the St. Paul road. Marinette lumber companies which are interested in the region in pine timber are anxiously awaiting details of the fire.

TO HELP CITY BANKS.

**Plan to Fix Responsibility in Passing
Raised Checks.**

New York, April 26.—There will be a special meeting held at the New York Clearing House Monday that will interest every bank in the country. The meeting is to decide which bank of a number handling a raised check is to bear the loss. It is proposed to change the constitution and by-laws governing the association banks so that the bank originally taking a check for collection will be liable for any loss that may ensue in its handling. The bankers say clerks in small banks outside of a few big cities have ample time to make a careful inspection of any check presented by a stranger, and can much easier determine any tampering. While this will be nice for the big banks of the association, many Wall street men predict a howl will be heard from the country banks, as the out-of-town banks are termed. They will naturally refuse to be made possible victims, and if the resolution carries, check collections hereafter will perhaps be done by express companies instead of country banks.

SCHWEINFURTH IS SAFE.

**Grand Jury at Rockford Unable to Se-
cure Direct Evidence.**

Rockford, Ill., April 26.—It is probable the grand jury will not find a verdict against George Jacob Schweinfurth. Those who had formerly lived with the angels down at Zion could swear to no illegal act, merely stating their surmises and belief of the condition of affairs. From the inmates themselves nothing whatever could be learned of a criminal nature. An attempt was made with poor success to explain the sensational increase of the population down on the Weldon farm. Yesterday a deputy sheriff was sent to the Schweinfurth headquarters to collect all the babies and the grand jury proceeded to hold a kindergarten. The case will probably be completed to-day.

Canal Bill to Pass.

Springfield, Ill., April 26.—An agreement has been reached between the valley people and the Drainage trustees which will result in the passage of the drainage bill which the Leeper amendment offered in the senate yesterday. No other amendment to the bill will be permitted. This agreement is satisfactory to everybody concerned. The drainage trustees say they can comply with it without extra expense to the tax payers of the drainage district and the valley people as well. This is an important step in the settlement of the difficulty, and there is no doubt as to its consummation in the senate. No swing bridge amendment will be attached to the bill nor will the original measure be changed in any way except as above indicated.

New Chicago Paper Incorporated.

Springfield, Ill., April 26.—A license to incorporate was issued yesterday by the secretary of state to the Enquirer Publishing company of Chicago, which is to be organized for the purpose of publishing democratic newspapers to be known as the Chicago Daily Democrat and the Chicago Weekly Democrat.

LAST HOPE IS GONE
FOR "LITTLE NIC"UNITED STATES DECLINED TO
HELP NICARAGUA.

**The Country Is Bound by Precedents
Too Strong to Break—The British
Troops Were Not Landed To-
day—Approved by France—Say
Corinto Is Closed.**

London, April 26.—At the request of the United States, the marines were not landed at Corinto this morning. They will wait until midnight tonight to give Nicol time to raise the money.

Washington, April 26.—Nicaragua's last hope of assistance from the United States in her controversy with Great Britain to prevent the seizure of Corinto has vanished. Dr. Guzman, the Nicaraguan minister, had an interview yesterday with Secretary Gresham. The interview was short. In five minutes the minister emerged from the secretary's office looking discouraged. He refused to say a word as to what had taken place, but it is ascertained the secretary gave him to understand clearly the United States would not interfere in the case as it stands. So there are now three courses open to Nicaragua—namely: to pay the indemnity, to permit the occupation of Corinto, or to fight. The British troops are to land at daybreak to-day at Corinto.

The position taken by the President in this matter is that the dispute is one entirely between Great Britain and Nicaragua, in which the United States has no right to interfere, unless there should be committed acts injurious to American interests in Nicaragua or there should be shown a disposition by Great Britain to acquire Nicaraguan territory. On each of these points a favorable assurance has been had from Great Britain, and it is said all that can now be done is to watch the course of events.

This decision was not hastily reached, for the entire subject of the relations of the United States to the countries of Central and South America was considered and discussed carefully by the President with his cabinet, and there has been made a close scrutiny of the precedents that might suffice for guidance. These have been found in at least three cases. The first was fully set out in the message of President Buchanan to congress in 1859, in that portion relating to Paraguay. In this case a United States naval expedition exacted an indemnity and apology from Paraguay for its insults and damages to American citizens. The other two cases are the well-remembered ones of Mexico and Chili.

Vice-Admiral Stevenson, in command of the British fleet at Corinto, has given Nicaragua detailed information as to the time and circumstances of the proposed landing of British troops. The admiral considered the time of grace to run until 12 o'clock last night. He will not begin a landing troops during the night. He fixes 6 o'clock in the morning as the precise time when the British forces will move. The exactness and seeming courtesy of this notification are in line with the notice of the British admiral before the bombardment of Alexandria. He fixed 7 a. m. as the time for opening fire, at which time exactly the action began.

The latest information received here is there will be no change in the attitude assumed by Nicaragua toward the British ultimatum, and the confident belief is the British will occupy Corinto and enforce their demands. Late last night a well known diplomat received private information from connections in New York City to the effect that Nicaragua had decided to refuse to accede to Great Britain's ultimatum, and would resist it. Dr. Guzman, the Nicaraguan minister, had not up to a late hour, received any information from his government respecting the matter, but he is of opinion that matters will transpire as indicated above.

Britain's Action Approved by France.

Paris, April 26.—The British ultimatum to Nicaragua is strongly approved here. France herself is having trouble in South America and will probably be obliged to send an ultimatum to Venezuela. La Liberté says America will growl but go no further. The Monroe doctrine does not cover diplomatic misdeeds and international bad breeding. Great Britain can take every reasonable satisfaction, for America is unable to fire a single gun.

No Request for an Extension.

London, April 26.—The foreign office, up to last night, had not received a request from the United States of Nicaragua for an extension of the time allowed Nicaragua for consideration of the ultimatum of Great Britain as presented by Admiral Stephenson, who is now at Corinto with three British warships.

Rumor That Corinto Is Closed.

Colon, April 26.—It is reported here the British squadron at Corinto has closed that port.

OUTLAWS WEAR ARMOR.

**In a Fierce Fight Deputy Marshals.
Bullets Have No Effect.**

Guthrie, Ok., April 26.—Senator John Allen, who returned yesterday, gives details of a desperate fight in the Potawatomi country between outlaws and deputy marshals. In a small grove the posse met the Christie brothers and their gang. One of the deputies shot several of the outlaws, but the bullets glanced off, as each of the desperadoes wore steel plates covering back and chest. The deputies, unable to do anything with the outlaws, who outnumbered them, returned to Norman bearing a dead comrade. The Christies and their gang are part of the band that robbed the train at Wynnewood, and are thought to be connected with a number of other train robberies.

BIG MILL AND KILN
FIRED BY A BOLTFIRE NEAR EAU CLAIRE COSTS
\$35,000 LAST NIGHT.

**Immense Planing Mill and Dry Kiln of
the Northwestern Lumber Company
at Porterville Bursts Into Flames
During an Electrical Storm—Other
Shops Threatened.**

Eau Claire, April 26.—Fire at midnight last night destroyed the big planing mill and dry kiln of the Northwestern Lumber company at Porterville, near here, and the loss is \$35,000 which is fully insured. It is supposed that the fire was caused by a bolt of lightning, as a terrific electric storm was raging at the time. Other mill property had a very narrow escape and was saved only by exceedingly hard work.

GIBSON ON THE RACK.

**Pastor Suspected of Marian Williams'
Murder.**

San Francisco, April 26.—About the only tangible evidence against Durrant, the medical student accused of having killed Marian Williams, that has been advanced in the preliminary examination so far, is that the prisoner was better acquainted with the dead girl than he at first would acknowledge. The Rev. John George Gibson, the preacher of the church, against whom suspicions have been publicly expressed as the guilty man, had a long siege in the witness box yesterday. The minister was nervous and everybody enjoyed his discomfiture. The length of the cross-examination and the manner of it indicate that Durrant's lawyers propose to throw the preacher forward as the center of their theory of the murders. The undercurrent of opinion among those who doubt Durrant's guilt is that Gibson should be the man under police surveillance.

Kansas Republicans for Silver.

Topeka, Kas., April 26.—The eighth annual convention of the Kansas Republican league met in Topeka yesterday, with 1,100 delegates in attendance. The committee on resolutions made no mention of the state government. On the financial question it declared "if the Republican party should be returned to power it will bring back a monetary policy and a coinage system which will immediately add to our currency the product of our American mines and restore silver to its old place as one of the money metals." Contrary to expectation, no opposition was made to the resolutions by the opponents of free coinage of silver.

Pension Agent Van Leuven Dying.

Anamosa, Iowa, April 26.—Pension Agent Colonel George Van Leuven, in the hospital department of the Anamosa penitentiary, is slowly sinking. Since his incarceration here he has lost over fifty pounds in weight. He is, in fact, approaching death. Van Leuven says his petitions are being generally signed and that 20,000 names will be presented to President Cleveland asking his release, besides hundreds of personal letters written by congressmen and senators in his behalf from different states. He believes Mr. Cleveland will release him from his slow death as soon as he knows the actual facts.

Missouri Legislature Pelled on Silver.

Sedalia, Mo., April 26.—The Evening Democrat of this city has interviewed the members of the Missouri legislature on the silver question, and publishes the answer to the question: "Are you in favor of the free coinage of silver by the United States at the present ratio?" Five Republican and seven Democrat senators answered in the affirmative, and four Republican senators in the negative. The house, fourteen Republican representatives and twenty-four Democrats replied in the affirmative, and two Populists in the negative.

Will Not Buy Off Rebel Leaders.

New York, April 26.—Senor de Lome, Spanish minister to the United States, who has just arrived from Cuba, said yesterday: "Statements have been made that the money Gen. Campos brought with him was for the purpose of buying off the leaders of the revolution. This is not so. The revolution is to be stamped out by force of arms. Estimates by conservative men, who have been among the revolutionary forces, place the number of them at about 3,000, not more than one-half of whom are armed and equipped. We estimate their number at about 4,000 with the same armed proportion."

Wreck of Reina Regente Found.

Gibraltar, April 26.—The Spanish frigate Isla de Luzon has discovered the wreck of the missing cruiser Reina Regenta, which was lost March 10 while bound from Tangier for Cadiz. The wreck lies midway between Tarifa and Trafalgar, in 109 fathoms. The ship had a crew of 420 officers and men, all of whom were lost.

Are Allies of Japan.

London, April 26.—England will give Japan open support in the ratification of the treaty of peace with China. A friendly understanding exists between the mikado and Lord Rosebery's government. But this is not all. This tacit alliance is a triple one and the United States is the third party to it.

Almost a Unit for Silver.

Chicago, April 26.—Secretary Burke says the Democratic county central committee is almost a unit for the free coinage of silver at a ratio of 16 to 1, and that the delegation from Chicago to the convention at Springfield will be nearly solid.

Free Silver Petitions for Iowa.

Dubuque, Ia., April 26.—A declaration in favor of free coinage of silver at a ratio of 16 to 1 will be circulated in Dubuque county for signatures.

Texan Democracy Split on Silver.

Austin, Tex., April 26.—The caucus last night settled the matter of harmony in the ranks of Democracy in Texas in that it declared itself unequivocally for free and unlimited coinage at a ratio of 16 to 1, and requested everybody of a different faith to get down and out. The committee appointed by the caucus to draft a suitable plan of action for the caucus reported recommending the introduction of a resolution in the house pledging the Texan Democracy to the support of the 16 to 1 silver theory; also the issuing of a proclamation calling on the people of Texas to rally to the support of the 16 to 1 theory by naming delegates July 25 for a silver state convention to be held at Fort Worth, August 6.

Cuban Insurgents Defeated.

Havana, April 26.—A band of 100 insurgents under the command of Ramirez Lozano attacked the town of Dos Caminos, twelve miles north of Santiago de Cuba, but were repulsed by twenty-two Spanish soldiers. The rebels left on the field four killed and ten wounded. The insurgents in the Manzanillo district appear to be in a state of confusion and are being closely pursued by Col. Santocildes. Antonio Maceo, the insurgent chief, whose reported suicide proved to be erroneous, will move his camp to another district. Several merchants have offered Captain-General Campos the sum of \$150,000 to be expended for patriotic purposes.

Will Distribute Bulletins.

Washington, April 26.—The secretary of agriculture will in about ten days begin the publication and distribution of a series of bulletins relative to the foreign markets for the agricultural products of the United States. Henry Seybert of this city was arrested as an accessory, and both men were taken to Terre Haute. Desbenett denies the charge but Seybert says he witnessed the killing and saw the fatal blow struck. Desbenett followed the man and knocked him down for the purpose of robbery. He got \$14. The man died where he fell. The body was never identified. There is a reward of \$500 for the murderers.

England Can Not Help Queen Lil.

London, April 26.—Replying to a question in the house of commons as to whether Hawaii is under the protection of the United States and if it is possible to approach the United States government with the view of obtaining proper treatment for Queen Liliuokalani, Sir Edward Grey, parliamentary secretary of the foreign office, said the Hawaiian republic was not under United States protection and that Great Britain did not see any opportunity of interfering in the matter.

Japan Can Defy Russia.

London, April 26.—In an editorial the Chronicle says: "Russia might as well try to invade the moon as to invade Japan. Every soldier she could land would find ten Japanese soldiers waiting for him, while it is not improbable that the Japanese would attempt a descent upon Vladivostok. This is the proposition that Russia must face before deciding to back up by arms her protest."

Noted Train Robber Taken.

Sedalia, Mo., April 26.—Word has been received that Frank Huffman, the train robber and desperado, who has operated in Central Missouri for the last five years, has been captured at Collins, Mo. STATUE BILL VOTED DOWN.

**Illinois Senate Refuses to Honor the
Memory of Father Marquette.**

Springfield, Ill., April 26.—The Humphrey bill and its amendments came up for discussion in the senate yesterday, and after another heated and acrimonious debate further consideration was postponed until next Tuesday. The lobby of the senate chamber was filled with members of the Wisconsin legislature. Governor Altgeld held a reception to the visitors, the officers of state and the members of the legislature from 4:30 to 6 o'clock in the evening.

Senator Dunlap called up the bill appropriating \$25,000 to build the statue of James Marquette in the Capitol grounds at Springfield. The bill failed to pass by a vote of 2 yeas to 16 nays. The bill placing Lincoln's monument in the custody of the state was called up on third reading, but was sent back to second reading for the purpose of amending the enacting clause, and was then advanced. Senator Fisher's bill, appropriating \$50 to each farmers' institute, and Senator Higbee's, providing for the surrender of charters by corporations, passed.

The following other bills were passed: Senator Higbee—To provide for the voluntary surrender of charters by incorporated companies. Senator Dunlap—To regulate warehouses of the second class and providing a penalty to prevent warehouse owners from selling and speculating with the grain stored in their elevators. The house bill appropriating \$50,000 for the care and maintenance of the Lincoln monument was called up by Senator Dunlap and advanced to third reading.

In the house Mr. Cody introduced a bill to prohibit barber shops from keeping open on Sunday. Mr. Ferns moved to suspend the rules and advance the bill to second reading, without reference to committee, but the motion was lost.

Mr. Hogan introduced a bill to prohibit the issuance or sale of so-called multiple bonds or annuities, the maturing of which depends upon chance or numbers or marks. Mr. Haines' bill, appropriating \$200,000 to establish a western hospital for the insane, came up for its second reading, and Mr. Kincheloe moved an amendment making it a homeopathic institution. This was laid on the table by a vote of 65 to 61. The bill was then advanced to its third reading. The house took a recess until 2 o'clock.

The house then took up the street and elevated railroad bills offered by Senator Crawford and advanced them to third reading. The street railroad bill was amended by a proviso to allow other corporations to purchase that no such purchase of the stock of parallel lines should be permitted. The senate bill, a duplicate of Mr. Noling's bill in the house, providing for the assessment of the property of mutual building, loan, and homestead associations, was called up on third reading and passed. It provides that the stock of every building and loan association shall be assessed against the stockholders and taxed. Petitions favoring the passage of Merriam's anti-Cholera bill were presented by Messrs. Merriam, Selby and Condo. Mr. Needles then called up Payne's bill appropriating \$200,000 for the establishment of the Western Hospital for the Insane. GAZETTE "ADS" PAY THE DEALERS SAY

MANY FIRMS MAKE THEIR BUSINESS BOOM.

They Spend From \$25 to \$175 a Month Each, and the Increase in Trade Runs From 30 to 50 Per Cent.—The Town in General Is Helped Thereby.

That judicious advertising pays is not a debatable question, for live energetic business men everywhere, have settled it in the affirmative long ago. That liberal newspaper advertising is judicious for certain classes of business has been pretty thoroughly demonstrated during the past twelve months by Janesville business men. A little more than a year ago The Daily Gazette was enlarged to an eight page, and the weekly to double that size. This gave space for a liberal amount of advertising without sacrificing the news service. Contracts were made with a number of leading business houses for extensive display advertising, with a firm conviction, so far as the paper was concerned, that the results would be very satisfactory to the patrons.

The year has been a hard year for business. The markets have been weak; many people have been out of employment and the conditions were not favorable for increasing business. Many business men felt that if they could hold their own they would be perfectly satisfied. And yet it is true that the retail trade of Janesville, has been remarkably good during the past twelve months. Many merchants cordially admit that these conditions exist because of extensive newspapers advertising while the men who have been the most enterprising in this direction say without hesitation, that the papers have brought them their business.

Perhaps no firm in the city ever tested, with more satisfactory results, the benefits of extensive advertising, than Bort, Bailey & Company, the wide awake dry goods men. They entered into a contract the first of May, 1894, with The Gazette, that called for the expenditure of three times the money that they had ever spent with the paper before, and they were always liberal advertisers. As a result they increased their sales a fraction more than 38 per cent. This is a plain statement of facts that either of the proprietors will verify. They will also tell you that their trade has extended from ten to fifteen miles in all directions.

Brown Bros. & Lincoln, the shoe dealers, have also been large advertisers and they have added a trifle less than 50 per cent to the volume of their business.

T. J. Zeigler through his enterprising manager, E. J. Smith, has also spent money freely on Gazette advertising and his business shows an increase of more than 30 per cent.

While these heavy advertisers have received the most direct benefit, the reflex influence has been felt in every line of business, so that the city instead of being hurt as has been foolishly claimed, has been greatly benefited. Pick up a Gazette in any city in the state, and the first comment heard is, "well, Janesville has a live lot of business men," and every word of it is true.

The Gazette congratulates the merchants on the enterprise exhibited, and pledges its best endeavors to make the year 1895 still more prosperous. It has been foolishly stated that the paper has some favorites among business men. This notion is too silly to demand attention; and yet to forever put at rest any disturbed mind, the management will say that any contract will be duplicated with any merchant in the city on the same money basis. Any man possessing sense enough to conduct a business, knows that \$1000 buys more advertising or anything else than \$300. It is the most simple business proposition.

The Lowell Hardware Company, the hardware hustlers, should not be omitted from the list of heavy Gazette advertisers. This company pays The Gazette from \$25 to \$175 a month for newspaper space. If you don't think it pays, ask them.

The moral of this little discourse is simply this. The Gazette is an excellent advertising medium, as well as a good local newspaper. The daily is found in 1,500 homes in the city every evening, and the weekly reaches every corner of the county twice a week. The paper can help any enterprising merchant to build up his business.

COST OF LEGISLATIVE SESSION.

It Will Exceed That of 1893 by Over \$2,000.

Secretary of State Casson's official statement of the cost of employees of the last legislature show the aggregate outlay for this item to have been \$54,465.78. Including all, from chief clerks to copyists and messenger boys, the legislative employees numbered 229, of whom 117 were required for the senate and 125 for the assembly. The 117 senate employees drew \$25,587.98 in salaries and the 122 assembly employees \$28,877.80. The total cost exceeds that of the regular session of 1893 by \$2,558.03, the senate employees that year costing \$22,904 and the assembly \$29,003.75, a total of \$51,907.72. Adding to this the cost of the two extra sessions would still bring the total to a smaller figure than that of this year.

THE WEDDING OF THE ANGEL.

Rockford Papers Have a Good Deal to Say About It.

Rockford papers have a good deal to say about the marriage of Schweinfurth's angel in Janesville. The Register-Gazette explains the situation as follows: "One of the sensational features of the session of the grand jury Wednesday afternoon, was the non-appearance of two of the witnesses subpoenaed from the Schweinfurth heaven to give testimony. Mrs. Teft and her daughter Marguerite, both veterans at the Weldon farm, George Jacob became frightened over having Mrs. Teft appear, for fear that she might tell too much of the life of an angel. So Schweinfurth had Mrs. Teft sick in bed yesterday and unable to respond to the summons.

"Her daughter Marguerite is young but she is over 7. It is said that she was the last of the females to become the mother of a little one the place, the parentage of which is charged up to the holy ghost. Her failure to appear was explained to Mary Weldon before the grand jury, the statement is said, being made that she had gone to Wisconsin to be married to William Weldon, one of the sons of the chief apostle Peter Weldon. Her baby was born in May, 1892 and George Jacob was also afraid that the grand jury questions might be more than she could stand. The marriage of course legalizes the child and in the eyes of the law prevents her from being prosecuted on the charge which Schweinfurth will probably be indicted on. Mrs. Tuttle was also to ill to appear before the grand jury.

"Mrs. Teft and her daughter Marguerite came to the Weldon farm from Alpena a number of years ago and have been faithful followers of the bogus messiah. The old gentleman Teft, it is said became insane over the subject at Alpena and the actions of his family and died. A branch establishment is still conducted at that place by Schweinfurth."

FRUITS AND VEGETABLES DROP. The Next Two Or Three Weeks Will See Big Changes In Prices.

Prices in fruits and vegetables are expected to take a fall within the next fortnight. At present the trade is a bit dull owing to the prevailing high prices, but the local dealers say that the market will undergo a change soon, as an unusually heavy supply is anticipated. The first run of strawberries, which are now selling for fifteen and twenty cents a box, come to Janesville from Tennessee and Mississippi, and the long shipment from those points necessarily add to the price. Soon the Illinois crop will begin to come in, however, and then prices will surely take a drop. Turning from the sweet to the sour, dealers say that lemons are scarce and an advance in price is consequently looked for. Good bananas command from \$1.75 to \$2 a bunch and are scarce at that, but they will be cheaper after a while in all probability.

Oranges are moving rather slowly at for \$2 to \$4 a box, a state of things that is chargeable to Jack Frost who came out, this year, as a early bird in search of the succulent worm. As an early riser, Jack was a great success as the people in Florida can testify. Oranges were frozen on the trees by the thousands and Janesville orange eaters pay their share of the loss. Good apples are like anything else of high grade, "scarce and high." At present they are quoted at \$5.75 a barrel and until the home supply comes in, there is liable to be very little chance for the better. Vegetables are getting cheaper every day now and soon you can buy a supply of succulent radishes and the crisp lettuce leaves for the price of a cigar.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough Cure. C. D. Stevens.

MODERN WOODMEN MADE MERRY.

Dancing Party at Liberty Hall Was Much Enjoyed Last Night.

A social and dance that all enjoyed was given at Liberty hall last evening by members of Florence Camp No. 366, Modern Woodmen of America. A few invited friends partook of the festivities and all who attended say they had a most enjoyable time indeed. The affair was in charge of a committee of arrangements, consisting of Orville Morse, Herman Kramer, E. Ryan, Henry Bidwell and Thomas Cherry, and they had spared no pains to make the affair a success. Tuckwood's orchestra furnished the music, ice cream and cake was served to the guests and the dancing lasted until midnight.

THE AUTHOR OF "COIN'S" BOOK His Free Silver Volume Has Made Him Independently Rich.

W. H. Harvey, the author of the famous and false "Coin's Financial School," lives in Chicago, and he gave his last dollar to the printer for the work on his book. He is a small, nervous man, 42 years old. He was born in Virginia, and was educated for the law. He practiced for a while in Cleveland, O., where he was a partner of Attorney-general Brown. This was in 1878. He married into the McCormick family, of reaper fame, and was for a time the attorney and adjuster for the company. He went west, and tried ranching and silver prospecting. He made money, which he invested in property. The last panic cleared Mr. Harvey out. He managed to get a few thousand dollars from the wreck, and went to Chicago with two convictions. One was that silver

was the only currency medium and that all national bank officers are conspirators against the wealth of the people. Mr. Harvey started to publish a weekly paper in the autumn of 1893. He called it "Coin." It lasted two months. Then came his first work on political economy, "A Tale of Two Nations." It didn't succeed. Then came "Coin's Financial School," which has made Mr. Harvey a comparatively wealthy man.

MEASLES EPIDEMIC AT MILTON TOWN

MANY ARE SUFFERING WITH THE DISEASE.

Party Go to Dakota To Hunt and Fish—Social Reunions Were Much Enjoyed—College Students Make Garden—"Dutch Measles" at Afton—County News.

MILTON, April 26.—The measles are now prevailing here and undoubtedly half the houses in the village will have a placard on them in a few days. Miss Williams of the kindergarten department of the graded school is a victim of the disease. Messrs. Clark, Cranfall and Darwin Brown have gone to North Dakota, where they will spend several weeks hunting and fishing. A pleasant social event took place this week at the residence of A. Wilmarth.

About twenty-five of the relatives and friends of Simon Alder assembled to do honor to his eighty-fourth birthday. An original poem by Rev. R. Trewartha, appropriate to the occasion, was read by the author. Mr. Alder is one of the early settlers here and his many acquaintances and friends trust that he may be spared to celebrate future birthdays in as pleasant surroundings.

Rev. E. M. Dunn and family enjoyed a pleasant reunion on the 21st inst. Those present from out of town were A. C. Dunn and wife of Sioux City, Ia., Prof. J. N. Humphrey, wife and children of Whitewater. A. O. Gifford's mare died Wednesday night. Dr. Roberts of Janesville, was called but gave no encouragement. Her death was caused by the breaking of a blood vessel in the lungs. Rev. S. H. Babcock of Walworth, was a Milton visitor this week. Miss Crockett of Beloit, was the guest of Miss Nellie Brown recently. Mr. and Mrs. J. D. Holmes of Janesville, spent Wednesday with Postmaster Morris and wife.

The Milton Junction News has discarded patents, and appeared this week cut and pasted. J. I. Mack and wife visited at Fort Atkinson this week. Ray Clarke has a new "Road King," and will soon be in the front rank of the local wheelmen. The Sabbath school class, of which Miss Nettie Coon is a member, gave her surprise party Thursday afternoon.

The Seventh Day Baptist social meet Thursday evening at the residence of E. W. Brown. Ice cream will be an attraction. President Whitford visited Chicago Wednesday and Thursday. The students, with their little rakes, improved the appearance of the college campus very materially this week.

The News of Afton.

AFTON, April 26.—Plenty of good maple syrup and biscuits will be the central features of a social to be given by Afton Lodge No. 182 I. O. G. T. at their lodge room in the basement of the Baptist church, next Wednesday evening. A short programme will be presented. The lodge will hold its quarterly election of officers next Tuesday evening. A species of rash popularity known as "Dutch measles" is quite prevalent among the younger generation hereabouts this spring, several being afflicted with it. A few members of the Afton Camp No. 2192 M. W. A. went to Hanover last Tuesday evening to attend the organization of a new camp at that place. Mr. and Mrs. G. R. Charles were chosen as delegates to represent the Baptist Y. P. S. C. E. at the district convention at Whitewater Friday and Saturday of this week. Not a vacant house in the village this spring. All occupied and more needed.

During the past few days 6 hardware firms have been on the anxious seat, ourselves, another in Janesville, and 4 outside firms, all on account of the hardware to be used in the new high school building. Yesterday the bids were opened and ours was the lowest, and we were awarded the contract for the entire amount of hardware to be used in this handsome edifice. This speaks a great deal for us. We have moved into our new storeroom in the Lappin block, and made it the handsomest hardware store in the state, are selling the best bicycle in the world, the Victor; are selling the best refrigerator in the world, the Alaska, and now awarded this contract shows clearly that our prices are the lowest.

Schweinfurth, the Rackford Messiah, is in hard lines, and is liable to have his wings clipped short, when the grand jury gets through with him. It is about time that Winnebago county developed a little sense. The Weldon farm has been a plague spot for years, and a curse to civilization that no intelligent community can afford to tolerate.

Members of the cabinet, at the earnest request of President Cleveland, will take the stump this summer in favor of sound money, and with the vain hope of saving the democratic party from impending ruin. This is a great year for democracy.

Mr. Châte, the able attorney, who was connected with the cases in the supreme court, predicts that the income tax litigation will last for twenty-five years. Democracy has opened up a good field for attorneys.

Congressman Cooper spent two weeks in Washington after congress adjourned, sending out seeds and literature to his constituency in the first congressional district.

It will not be difficult for the south to secure the next presidential nomination. Northern democrats are not tumbling over each other to get to the front.

Senator Allison of Iowa, seems to be coming out of retirement with strong indications that he will be heard from in the next presidential campaign.

The sound money democrats are numerous in all parts of the country. If free silver is the issue in 1896, many of them will be found in the republican column.

BOWER CITY NEWS NOTES.

Miss TORRETT's solo was played with exceeding grace of touch and feeling. The second movement closes with an entire strain in the most harmonious chords, the easy execution of which indicated Miss Torbett's familiarity with the finger board, and in general, her thorough knowledge of the technique of the violin. In response to a hearty recall she played an air with the "violin" with the plaintive effect of an Alpine violin. News and Courier, Charleston, S. C. At the Myers Grand next Tuesday night.

THIEVES IN PLENTY AT SPRING BROOK

FOUR HOUSES WERE VISITED
LAST NIGHT.

Nothing Was Taken Except a Quantity of Food Which Is Missing From George Foster's Home—Missing Horse Found by the Police—Augustus Cook Again Jailed.

Hungry men raided Spring Brook last night, and attempted to burglarize the residences of Fred Lutz, George Foster, Sr., George Foster, Jr., and Charles Heise. At one of the Foster houses they succeeded in getting what they were after, and left.

It was about 1 o'clock this morning when Mrs. Lutz was awakened by a sharp snap, as the thieves broke one of the wooden slats that was nailed across the kitchen window of their residence on Eastern avenue. The robbers gave up the attempt at that window, after making the noise, and for some minutes all was quiet. After waiting a short time the thieves moved around to the front of the house and attempted to raise the parlor window. Here they knocked a number of potted house plants from a bench and alarmed the household again. Mr. Lutz had begun a still hunt by this time and the thieves made their escape. Later it was found that a side window had been pried up about six inches and the attempt then abandoned.

The thieves evidently turned their attention to the neighboring houses after being scared away from the Lutz house, visiting the house of George Foster. Here they succeeded in getting in and securing a quantity of food, portions of which had been scattered about the house, which had been pretty thoroughly ransacked. At the home of George Foster, Jr., the attempt to get in failed as did also their work at Charles Heise's home.

Located a Missing Horse.

If you do not believe that the Livestock Protective Association is a strong organization, just go and steal a horse and find out for yourself. A good illustration of the workings of the association was given this morning when Chief Acheson located a missing animal by means of the number put on the harness by the owner, who is a member of the organization. Yesterday S. K. Sweet of Shopiere, came to Janesville and reported that a stranger had left a horse at his barn saying that he desired to quarter the animal there for a "few days." No one claimed the animal and Mr. Sweet became anxious to know who owned it. In the meantime a horse had disappeared from Sharon and N. Frederick, who happened to be in Sharon, got the number of the harness from the liverymen who owned the missing outfit. When he returned he told Chief Acheson who at once put two and two together and found as usual, that the result was four. The chief looked through the livery register and learned that the number of the harness on the horse in Sweet's barn showed that the rig belonged to the Sharon liveryman, H. Dubuis. This morning he notified Mr. Sweet of the fact. The man who hired the rig registered at Sharon as J. Wallis and left an unpaid board bill for \$10. He hired the rig Wednesday of last week, which he used every day until last Saturday, canvassing about the village and suburbs, for pictures to enlarge. The last heard of him was when he called at George Knaub's, and since then man and rig had not been seen anywhere in the township. The same day the horse and buggy were left at Mr. Sweet's home.

Cook In Jail Again.

August Cook is making considerable trouble for the police officers these days. Cook spends considerable time in the county jail, being frequently arrested for various misdemeanors. He will be remembered as the man who maimed one of Mr. Decker's horses a year or so ago and who served time in the county jail for that brutal offense. Cook is now in jail, he being arrested while loitering around the park frightening the little folks. The police officers insist that he is insane, and a movement is now on foot to have him examined by a commission, and if found insane, committed to the insane hospital.

The chief of police of Watertown will come to Janesville this evening to identify a man whom Patrolman Hogan jailed today, on suspicion of being the man who tapped a cash register in Watertown last evening. The man arrested answered the description telephoned to the local police.

CALEDONIANS PLAN A BIG PARK They May Buy the Schoof Farm as a Summer Garden.

A proposition is now being talked up among the members of the Caledonia society, for the purchase of the Schoof farm, north of the city. The property, which is situated opposite Mt. Olivet cemetery, extends from Madison avenue to the river, embracing seventy-five acres, but only fifteen acres are wanted. An extension of the street car line would be made, and if the grounds were laid out on a large scale, the Northwestern Company would put in a side track, so that Sunday excursion trains would be run in from surrounding cities, the same as is now done at Watertown. Superintendent Proudfoot of the street railway, and Treasurer John Harvey of the Caledonia society, were on the scene this afternoon looking the grounds over. The Caledonia society have rented the fair grounds for their annual games for some time, but now prefer grounds of their own. They appointed a committee consisting of Robert Lamb, C. C. MacLean, Andrew Barless, John Harvey and Alex. Galbraith who are to look into the matter and report at the next meeting.

TO LET OFF ANOTHER BIG BLAST

Plans For a Big "Blasting" at the Millmore Quarry.

C. K. Millmore is making plans for another big blast at his Monterey quarry. Workmen have been engaged for the past week drilling a large hole in the solid rock, which will soon be filled with giant powder. A blast like this one raises 175 cords of stone, which is worth from \$3 to \$5 a cord.

BOY'S THROAT CUT BY A BARB WIRE

HERMAN QUADE, OF HANOVER,
FEARFULLY MURT.

Dr. K. Mehnert Took Twenty-Three Stitches in a Gash That Reached Within a Quarter of an Inch of the Jugular Vein—Plucky Little Girl's Arm Broken—Other Accidents.

Herman Quade, an eight year old Hanover boy ran against a barb wire fence while at play and the accident nearly cost him his life. The boy was playing with a number of schoolmates in a field enclosed by the wire fence. The lads were dodging each other and running when young Quade got too close to the fence. Seeing one of the other lads coming toward him he turned quickly and started to run at top speed without looking about to see where he was going. He ran squarely against the fence and one of the wires caught his throat. In an instant a five inch gash had been cut in his neck by the barbs and the boy fell to the ground bleeding copiously. A messenger was dispatched to Janesville for Dr. K. Mehnert who hastened to Hanover. He found the lad's injuries very severe. The cruel barbs had cut within a quarter of an inch of the jugular vein and the doctor took twenty-three stitches before he had closed the gaping wound.

"I think the boy will live," he said this morning "but it was a close call for him."

Plucky Girl's Arm Broken.

While playing on the steps of the Grant school house Kattie McCarthy fell, breaking her left arm in two places. The accident happened last evening at 7 o'clock while she was sliding down the hand rails. Although she is but nine years old the little girl was gritty and walked unaided to King's drug store where Dr. Palmer dressed the fractured arm, after which she was taken to her home, 8 Terrace street.

While switching cars in the Northwestern yards, Thomas Connors accidentally caught his thumb between the bumpers, crushing it. He was taken to the office of the Dr. Palmer where amputation was found necessary. The accident, which is a painful one, will lay him up for some time to come.

We value Milkine very highly. We had tried feeding our baby on milk and other food. She always seemed hungry and did not thrive at all. We were advised by a friend to try Milkine. This agreed with her perfectly. She is now growing and is strong and healthy. We believe Milkine to be superior to anything of the kind for children.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for The Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.
It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Out the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

A Blessed Deliverance.

This is effected when the hostile disturbance of the liver, known as biliousness, ceases through the benign operation of Hostetter's Stomach Bitters. Pain in the right side and under the right shoulder blade, yellowness of the skin and eye-balls, "fur" upon the tongue, morning nausea, vertigo, sour breath, irregularity of the bowels and sick headache, are among the distressing symptoms which take their departure when the great antibilious medicine is resorted to. Chills and fever, kidney and bladder trouble, rheumatism, dyspepsia and nervousness are also remedied by the Bitters, which is also a superb tonic and promoter of sleep and appetite. Use the Bitters persistently and not by fits and starts. Speedy good results will follow.

If the Baby is Cutting Teeth,

Be sure and use that old and well tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

SPRING FANCIES AND FADS.

Hats Are Larger Than Ever and Profusely Trimmed.

Hat trimmings are spreading out to right and left in most extraordinary and alarming manner, and were it not for the protection afforded by the fashionable sleeve it is more than probable that oculists would have their hands full, with patients suffering from a new form of eye disease, the result of wounds from fashionable and ill disposed hat trimmings.

Bad news for playgoers is reported from Paris. Hats are to grow larger, instead of diminishing in altitude, during the coming season. The customs of the ancient Gauls and the most extravagant court fashions of bygone centuries are to be rivaled in 1895, and the ladies are going to borrow their headgear from the days when Henry IV wore a regal panache towering above his hat and Murat's aigrets cost him 30,000 francs (about \$6,000) in three months. Added to the towering plumes of these gentry will probably be the huge lotus flowers, dear to Mme. Chrysanthème.

OUT OF DOOR GOWN.

The gaudy feathers of the African bird of paradise, and the garlands of roses that Virginia wound about her brows to please her cher Paul.

Yellow, green and black straws are particularly fashionable, and flowers are the extreme of the mode as to trimming. Plumes are not discarded, but are combined with other trimming instead of being used alone.

Round hats, both large and small, are to be greatly worn, and crowns may be low or high, as one chooses. This is an eclectic year, when everything "goes" and the most oddly dressed woman may be the most fashionable.

The gown shown in the sketch is of poul de soie of a reseda green, trimmed with pansy velvet. On either side of the front of the bodice is a box plait of velvet, the foot of the bodice being adorned with cords of pansy passementerie. The bodice, which is tight, has a wide velvet plait both back and front and is further trimmed in part with passementerie like that on the skirt. The balloon sleeves are of velvet and are gathered into a deep cuff of poul de soie with passementerie trimming.

HOW TO RENOVATE SILK.

Black Silk May Be Made to Look Like New.

There are various methods of renovating old silk. One of the latest recipes tells us to place each piece of silk on a smooth, clean table and dip a wad of the material into the cleaning fluid, which should consist of equal parts of alcohol and lukewarm water. Cold coffee, well strained, or water in which an old black glass kid glove has been boiled is also good. This latter mixture is made by putting a glove into a pint of water and boiling it down to a half pint. Sponge the goods on what will be the right side when made up, as some silks can be turned after being worn. Hang each piece on a line to drip. When nearly dry, iron with a moderately warm iron on the wrong side, placing a piece of soft black cambric or crinoline between the iron and the goods, and ironing each piece until it is perfectly dry. Then lay away the pieces without folding. If the sol-

SILK AND MOUSSELINE GOWN.

vage edges seem to draw after the silk is wet, cut them here and there to give a key-way. The ironing must always be done on the wrong side and over a second fabric, which must be dark if the silk is dark. Grease spots may be removed with naphtha or by scraping French chalk upon the spots, leaving it overnight and brushing it off in the morning, repeating the process if necessary. Remove all grease spots before washing the silk. Benzine will remove paint, but leaves a stain like water, which may be removed with French chalk. Grease may be removed from silk by rubbing a lump of wet magnesia over the spot, allowing it to dry, then brushing off the powder.

The gown illustrated has a skirt of broche silk of a green and pink changeable weave with black spots. The blouse is of black mousseline de soie, covered with stripes of jet and trimmed with black satin bows. The belt is of black satin with peplum basques of black mousseline trimmed with jet. The bouffant sleeves of broche silk extend only to the elbow and are trimmed with choux of black satin.

A TRUE STORY.

Last month I cleared, after paying all expenses, \$235.38; the month before \$184.86 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co. Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location, can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

FREEPORT, ILL. February 15th, 1895

TO THE TRADE:

Appreciating the fact that there is a demand for buggies cheaper than any we have heretofore made, we have equipped a part of our plant for the exclusive manufacture of this grade of work. In making this arrangement we have been careful to direct the general make-up of the goods, and our long experience in making high grade vehicles, enables us to incorporate more style than is generally found in low-priced work.

We know that it is much more satisfactory to the dealer to buy direct from the manufacturer, than through other sources.

We will be able to meet all competition in this grade of work.

Yours truly,

HENNEY BUGGY CO.

We handle this famous make buggy and buy direct from the factory and quote factory prices.
